
EMPORDÀ MAR
WORKSHOP

EMPORDÀ MAR

Empordà Mar creates clown and physical theatre shows that move audiences, provoke laughter and raise awareness. With the sea as its inspiration and ecology as its guiding thread, it combines powerful images, subtle humour and classical music. Each show is accompanied by educational guides and workshops to enhance the experience. Unique theatrical productions that connect with audiences of all ages.

HELLO!

The Empordà Mar workshops aim to enrich understanding of the concepts presented in the company's performances.

These are participatory activities, the result of experience and scientific collaboration, and are characterised by being very dynamic activities in which various topics related to the sea are explored.

WHAT WORKSHOPS CAN WE OFFER YOU?

workshop 1

WE ARE PUTTING A STOP TO MARINE POLLUTION

It deals with the assessment of the causes and consequences of marine pollution, both locally and globally, and highlights the degradation times of different types of waste that end up in the marine environment.

FISH FROM THE FISHMONGER'S

It consists of identifying the species that are under the most pressure from fishing and what aspects need to be taken into account when we go to buy fish.

workshop 2

workshop 3

FISHING GEAR AND SUSTAINABILITY

describes the main types of fishing gear and how to move towards more sustainable fishing. This activity uses virtual reality headsets and a 360° immersive experience to show the different types of fishing in Catalonia.

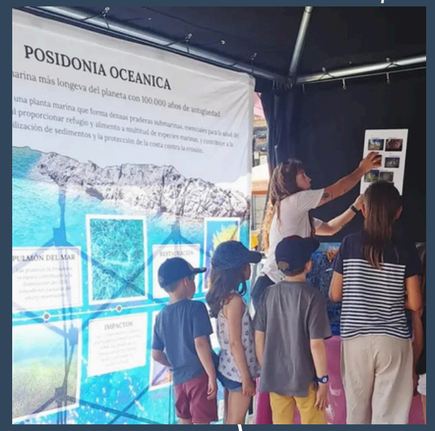

TYPES OF FISHING GEAR AND THEIR VESSELS

It consists of learning about the various small-scale fishing techniques used on their boats, net fishing methods, and the impact these have on ecosystems.

workshop 4

workshop 5

POSIDONIA AND GORGONIANS

Discover the world of underwater meadows and sessile fauna such as gorgonians, how they interact and their ecological role.

CRESTED CORMORANT

shows the problems this bird has with coexisting with humans.

workshop 6

SPACE

The workshops are designed to be held in an open space such as a school playground, a promenade, a park, a green area, etc. The location must be large enough to set up the four tents that serve as the structure for installing the materials that accompany each of these activities. An educational canvas is attached to each tent (3 x 3 metres) to accompany the educators' explanations.

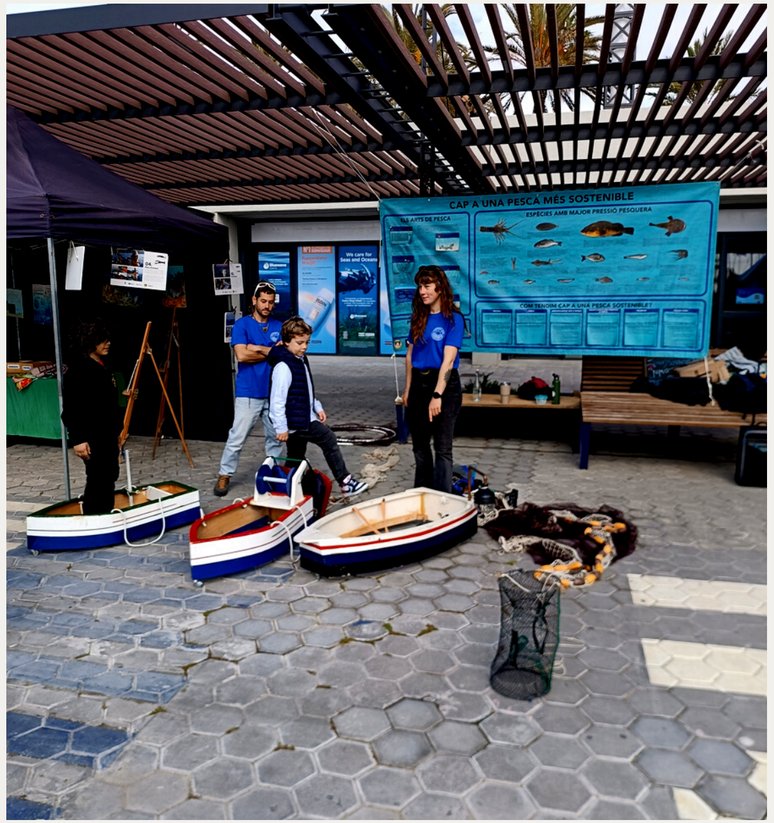

DURATION

Each workshop lasts between 30 and 40 minutes, depending on the age and number of participants.

MONITORING

The workshops are led by environmental educators who help participants complete the proposed activities and guide them towards achieving the conceptual objectives addressed in each workshop.

IF YOU COLLABORATE WITH EMPORDÀ MAR, PART OF THE FEE HELPS TO FINANCE PROJECTS RELATED TO THE SEA:

- Posidonia Grows in Cala Galladera - Port de la Selva
- Dissemination of scientific projects by fishermen: RESCAP, MITICAP, DESMARES, Golf de Roses and Cap de Creus sampling.
- Management of the ROV for the collection of waste and lost fishing gear.
- Seabed cleaning

+ project information

SDG 4

Environmental awareness programme through theatre

SDG 14

Raising awareness of the crisis facing the sea and its solutions

SDG 12

Reflection on the impact of consumption on the oceans

SDG 15

Importance of biodiversity and natural balance

All our activities are strongly aligned with sustainability goals and contribute to raising awareness and encouraging action from the ground up, promoting changes in the attitudes and habits of new generations.
